EXPERIENCE

Full-Stack Web Development Student

Northcoders

 05/2021 - 08/2021

 Manchester, UK

- Undertook an industry-leading coding bootcamp teaching full-stack architecture and best practices of programming
- Completed projects that focus on both frontend and backend, such as setting up APIs and databases as well as creating responsive web-sites using the DOM and ReactJS
- Gave a lightning talk on password hacking as part of an extracurricular event that was streamed live on YouTube ([Link](#))

Freelance Consultant

Celonis

 11/2019 – 04/2020

 Leeds, UK

- Consulted the Customer Operations team to further enhance the analytics framework
- Provided enablement to help new team members at Celonis get familiar with the technical setup

Customer Operations Manager

Celonis

 06/2018 – 10/2019

 Munich, Germany

- Built and administered a data-driven customer analytics framework leveraged company-wide by Services & Customer Success
- Produced tailored reports for senior management featuring business critical KPIs such as retention and customer health

Project Manager

Mercedes-Benz Germany

 09/2017 – 06/2018

 Berlin, Germany

- Ran the Project Management Office of an initiate to introduce electronic invoicing, coordinating efforts across multiple departments
- Forecast to achieve an annual 6-figure reduction in costs, reporting the project status directly to the CFO
